What are your legal obligations to me when providing recommendations? How else does your firm make money and what conflicts of interest do you have?

We *do not* provide recommendations. The way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the services we provide you. Here are some examples to help you understand what this means:

Cash Management - Insured Network Deposit Sweeps Program

Cryptex Limited gives you the choice to be part of our Cash Management Program. When you enroll in the Cash Management Program, uninvested cash in your Account will be deposited into an insured deposit account at a Program Bank. We earn money on the difference (or spread) between the rate the Program Bank pays you for the cash and the fee paid to us by Program Banks for the use of your cash, so Cryptex Limited has an incentive to send your cash to the Program Banks, and you receive a lower yield than if the Program Banks did not pay us a fee.

Payment for Order Flow

Cryptex Limited earns revenue from your trade activity and therefore has a monetary incentive for you to trade more. Specifically, we earn revenue from third-party market centers to which we route customer orders, so we have an incentive to route orders to market centers that pay or rebate us for such orders, subject to our best execution requirements. For additional information, please contact us

Examples of other Revenue Cryptex Limited Receives:

- Interest on uninvested cash deposited in interest-bearing bank accounts outside the Sweep Service.
- Stock loan income from lending the stocks you purchase on margin.
- Interchange fees from purchases made by you with the Sweep Service debit card.
- Payment from a third-party for services rendered in distributing new securities issues.
